STAT

MEMORANDUM FOR: Director of Logistics

FROM:

Director of Security

SUBJECT: Increase of Imprest Fund Authority

STAT

REFERENCE: OL memo, OL 8 2361a,
Procurement Authority

1. The Office of Security requests an increase in the procurement authority of the [] per line item to [] per line item for emergency purchases.

STAT

2. In these times of inflationary pressures and tight budgets, such an increase has become mandatory in order to continue to function efficiently. Communication spare parts, i.e., PC Boards, repair modules and other related items, have skyrocketed in price.

3. The Technical Security Division maintains a quick repair facility, and depends on small parts local purchase for many timely projects. This is not an attempt to circumvent the existing procurement channels.
